

Northeast ADA Center

The Northeast ADA Center announces a training opportunity brought to you in partnership with United Spinal Association,

The 2010 Revised ADA Accessibility Guidelines Training

*March 23, 2012
1:00 PM – 3:00 PM EST
Online Webinar*

Description

This live, instructor-led on-line program will provide attendees with an overview of the 2010 ADA Standards for Accessible Design and highlight those areas where accessibility requirements found in the 2011 Puerto Rico Building Code differ from federal accessibility requirements. Specifically, this course will focus on: problem application areas in commercial facilities, accessibility requirements in existing facilities and accessibility requirements to and within special occupancies. We will also focus on the new guidelines for toilet rooms and other aspects of the built environment.

Topics that will be covered

- Effective dates for the 2010 ADA Standards for Accessible Design and a review of Title II Program Access obligations and Title III Barrier Removal obligations.
- Major differences between 1991 ADAAG and the 2010 ADA Standards for Accessible Design - including information on how the 2010 Standards have been harmonized with model building codes (i.e. the IBC and ICC ANSI A117.1). Specific topics covered will include:
 1. Interior & Exterior Accessible Routes (including accessible doors, ramps, walking surfaces, lifts, etc...)
 2. Accessible Parking
 3. Toilet room Accessibility

4. Special occupancy requirements (employee work areas, press boxes, places of assembly, housing at places of education, etc...)
5. Overview of the new requirements for recreation facilities

Learning Objective 1:

Participants will develop an awareness of the new US Department of Justice 2010 ADA Standards for Accessible Design. Specifically covered will be effective dates, safe harbor provisions and a review of the layout of the 2010 ADA Standards for Accessible Design.

Learning Objective 2:

Participants will leave the session with an understanding of the application of the 2010 ADA Standards for Accessible Design for existing facilities that cannot use the Safe Harbor provisions - using the Title II (Program Access) and Title III (Barrier Removal) standards.

Learning Objective 3:

Participants will be able to identify the changes from 1991 ADAAG that are found in the 2010 ADA Standards for Accessible Design for toilet rooms, accessible routes, parking and other special occupancies.

Learning Objective 4:

Participants will gain an understanding of those areas where the 2011 Puerto Rico Building Code & ICC ANSI A117.1 contain accessibility requirements that differ from the 2010 ADA Standards for Accessible Design.

Who would benefit from this program?

- Architects
- Building owners
- Municipal managers
- ADA coordinators
- Disability advocates
- Anyone charged with determining if the built environment complies with ADA Accessibility Requirements.

Instructor

Jennifer Perry, Compliance Specialist
Accessibility Services, a program of United Spinal Association
